## School Improvement Plans and District Strategic

### Plan : Fitting the Pieces

#### INSIDE THIS ISSUE:

Fitting the Pieces	1
Hard at Work	1
Vision	2
Beliefs	2

The alignment of school improvement plans with the district strategic plan should be a seamless plan.

The district strategic plan is made up of three performance goal areas: Student Achievement, Teacher Quality and School Climate.

Student Achievement::

- 4k Programs
- PACT ( 3-8)
- HSAP
- HS Graduation ( diplomas)
- Perkins
- Adult Education

Teacher Quality

- Recruitment / Professional Development

School Climate

- Parent Involvement

The school improvement plans are annual updates. The data teams will review performance goals and data at the end of the year . Appropriate adjustments will be made at the school level based on this review.

**The mission of the Abbeville County School District is to develop proficient, creative, self-motivated students by providing quality educational opportunities in a safe, nurturing environment, which supports innovations and lifelong learning.**

### Standards for Quality Systems Teams are Hard at Work

Work is progressing nicely on the district plan with the help of all department heads.

Each of the department heads have been assigned one of ten standards that we must provide evidences that we are addressing the standard as well as planning based on the standards. A great deal of planning and time is going into the formation of these teams.

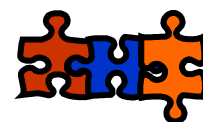

To date we have completed several important steps toward building a stronger school dis-

trict.

**Step 1: Planning:** We began by forming the most important piece which is our vision for Abbeville County School District... **Abbeville County School District will be a model of excellence in education. Our vision will support us as we begin our mission. The mission of Abbeville County School District is to develop proficient, creative, self-motivated students by providing quality educational opportunities in a safe, nurturing environment, which supports innovations and**

**lifelong learning.** The second most important piece in planning is to develop clearly defined goals. **The goals are outlined in the district strategic plan.**

Step 2: The Plan: The district strategic plan focuses on three major areas which are: Student Achievement, Teacher Quality and School Climate.

Step 3: Evaluation: The district is very focused on insuring that all students achieve to their highest potential. To do this we must evaluate the district plan to continually meet the needs of all stakeholders. A great deal of attention is also given to assessing programs

that are implemented to insure the highest quality programs produce results.

**“Old is Always  
More  
Comfortable”**

### Vision

*Abbeville County School District will be a model of excellence in education.*

### Beliefs of ACSD

*Abbeville County School District*

*Our vision and mission are guided by the following beliefs:*

*All individuals have worth and dignity.*

*Respect for all should be modeled and encouraged.*

*Quality education depends on involvement and shared responsibility of parents, students, educators and community.*

*Education is the foundation of the community.*

*Lifelong learning is the key to the future.*

*Effective teachers are essential for student success.*

*Every child has a right to a quality education that meets the student's individual needs.*

*Discipline is a vital part of education.*
