

JCCE Students Explore the Rain Forest

Over the past several weeks, students in Miss Cunningham's GATE/Enrichment Program have been exploring the different layers and foliage of the rainforest. To conclude the unit, they created miniature terrariums and observed how different types of light affect the growth of their plants. Pictured from front row to back are Sara Hoover, Michaela Boozer, Cameron Williams, Jasmine Wells, Deliyah Tillman, Yalana Boozer, Ryleigh Shaw, Kerri Unkle, Josie Parnell, Brady Cox, Jim Porter, Rebecca Fleming, Javarzia Belton, Falyn Dowell, Nathan Hoover, Nyasia Dwight, and Olivia Rodriguez, and Anna Grace Rhodes.
