

The GUIDANCE Department
J.S. Wright Middle School

The J.S. Wright Middle School Guidance Program is a comprehensive, developmental guidance program for our middle school age students. We focus on the changing needs of our students and we try to maintain a balance between academic, social, and career demands. The guidance counselor and the career specialist work with the students and parents on educational and career development as they transition to the high school.

The Guidance Counselor can:

- Talk with students about their schedules and classes
- Answer questions about academic concerns
- Explain test scores
- Listen to and respond to concerns regarding issues that might affect the student's academic success
- Offer suggestions for improvement in academics
- Help with transition between elementary to middle and middle to high school
- Schedule parent – teacher conferences
- Discuss school policies and procedures

- Refer you to the appropriate staff members who can help you with specific needs
- Help families with transitions between school transfers

Please call 864.366.5998 to speak with the counselor if you need to help with any of the above or any other academic concern you might have.
